

## **CLACKMANNANSHIRE STRUCTURE PLAN 3<sup>rd</sup> ALTERATION 2004-2024**

### **SCHEDULE OF REASONS FOR PROPOSED MODIFICATIONS**

**Reasons refer to changes made in the accompanying full revised text of the Structure Plan Alteration in the form it is proposed to be modified.**

**Reasons follow the structure and paragraph numbers, policies and proposals of the revised text.**

**Reasons relate either to deleted or inserted text, modified policies, proposals, figures, maps or diagrams. Reasons are not given for minor modifications which make corrections, improve readability or update references to publications or organisations.**

### **REASONS FOR MODIFICATIONS**

**1.2.1** To acknowledge existence of more recent population projections from the General Register Office for Scotland (GROS). Ministers have decided not to replace the 2004 figures with the 2006 figures given that the outcome in terms of housing land supply is almost identical.

**1.3.6** To update the position in relation to the introduction of the new development planning system.

**4.3.7** To remove references to population decline, given updated GROS projections.

**4.3.11** Changes consequent to modifications at 1.2.1.

**4.3.16, 4.3.17 and 4.3.18** To remove references to population decline and support strategy for growth, given updated GROS projections.

**4.3.19** To minimise the impact of development in the Tullibody-Alloa corridor on the Firth of Forth Special Protection Area. This flows from the Council's Appropriate Assessment and the proposed wording is supported by the Scottish Environment Protection Agency.
